Bollywood dance is the popular dance form of Indian movies. It is an energetic and vibrant dance style based on catchy and compelling music. It is an interesting medley of Indian folk dance, Indian classical dance, Indian contemporary dance, plus Western styles such as Hip-hop and Jazz. Bollywood has steps with full body movement, and also involves interesting face expressions and graceful hand movement. I plan to complete a full song in 2 classes.

Wear your dancing shoes or dance barefoot in the Bollywood dance class..!!
